OKTALITE

COUNTRY OF ORIGIN

CANILO

CANILO is characterised by classic, elegant design and provides a special element for supporting the customer's CI: the lateral bracket can be adapted colour-wise to customise it. The set-back reflector with integrated anti-glare ring provides a high degree of visual comfort. At the same time the surface-mounted spotlight stands for high performance and efficiency.

With its single-arm connection the track light is shown off in the right style and radiates a particular lightness.

CANILO stands for compact and modern design that fits into every shop design. With its slim proportions the LED luminaire sets modern accents. At the same time the customer's customised colour scheme can be incorporated into the luminaire design by the lateral lug being available in any colour required.
