

LIGHTPANEL TRACK LIGHT

System Performance:	39W - 77W
Temperature :	3000 K -3500 K - 4000 K
Luminous Flux:	6500 lm - 12000 lm
Luminous Efficiency:	170 lm/W
CRI:	80/90
Lifespan:	50000 hr
Beam:	Wide - Very Wide
Dimensions:	L: 741mm W: 129mm H: 168mm
Frequency:	50-60 Hz
Protection:	IP20
Protection Class:	I
Weight:	2 Kg

DETAILS

APPLICATION

Food Lighting
Retail Lighting

MANUFACTURER

oktalite

COUNTRY OF ORIGIN

LIGHTPANEL

A simple look, sophisticated optics, intelligent mechanics, lighter – and high lumen-output with up to 12,000 lm: the new LIGHTPANEL generation represents sustainable quality of light. With 170 lm/W, the lighting tool scores with maximum efficiency. Whether for general lighting, merchandise or aisles: our LIGHTPANEL is ideal for a diversity of retail lighting tasks.

Is your shop is up to five metres high? Is your track at right angles to the merchandise aisle? The new LIGHTPANEL masters both. High luminous flux, very good colour rendering plus efficient lens technology bring light to where it is needed. Thanks to its discreet look and feel, the luminaire remains unobtrusive in the ceiling. The optimal position of the centre of gravity keeps the LIGHTPANEL safely in balance, whether the luminaire body is rotated or suspended from the track

The new LIGHTPANEL is the system-strong addition to the proven E-LINE-NEXT continuous line system. It uses its technology and thus features maximum reliability. Compared to its predecessor, LIGHTPANEL is 28% lighter. This saves material and improves the handling during mounting. Install LIGHTPANEL effortlessly along the track or rotated by 90°. For efficient lighting concepts either parallel to or across the aisle.

Benefits for building operators

- High quality of light
- Maximally efficient with up to 170 lm/W
- Flexible uses due to LED IQ
- Suitable for large areas
- Faster cost payback
- BAFA eligible

Benefits for electrical contractors

- Quickly aligned, mounted and fixed
- Maximum technical reliability
- Sustainable multiple packaging
- 28% weight and material saving compared to previous model

Benefits for users

- **Excellent merchandise displays in aisles**
- **Flexibility in use: lengthwise or rotated by 90° transverse to the track**
- **Best light for general lighting**
- **Intelligent luminaires, intuitively controllable**
- **Full automation of the light**
- **Can be enhanced with sensor technology**
