SMARTPANEL 600

High efficiency and flexibility white luminaire dimensions 600 x 600mm for mesh ceilings from the TROLL family of Luxiona Group. The Smartpanel regulates an advanced and innovative thermal balance system through passive detachment with variable color temperature from 2700K to 6500K. Used as general lighting for offices, schools, commercial spaces or architectural spaces. The luminaire is made of aluminum and integrated with a polycarbonate opal diffuser with a beam angle of 116°. The degree of protection is IP44/20. It can be installed either on a false ceiling or on a ceiling surface.
